

WE'RE ALL IN THIS TOGETHER

ABOUT STEWARDSHIP AGENCIES OF BC

The Stewardship Agencies of BC (SABC) is a coalition of Extended Producer Responsibility (EPR) organizations from across British Columbia working together to promote and manage responsible “end-of-life” programs for obligated products. We are a self-motivated and self-organized collective of committed individual organizations deeply dedicated to our goals and working together for the mutual benefit of all British Columbians.

BC'S PRODUCT STEWARDSHIP MODEL

BC offers the most extensive list of mandated materials for recycling in North America. Guided by the Province of BC's Recycling Regulation, our industry-led programs increase access, improve recycling rates, divert materials from landfill, and educate British Columbians to support a circular economy.

Extended producer responsibility has existed in British Columbia for over 25 years.
